Instructions to reset employee password for Timeclock:

1. **If an incorrect password is entered, the red box will appear with a link to reset the password**.
2. Once an employee clicks on the link, they will be prompted to fill out the box below to change their password. **Note: the email entered on this screen must be the same as the one used during registration.** An email with a reset code will be sent to the employee. Use this code and create the new password. Click "RESET".
3. After resetting the password, the employee will be taken back to the login menu.
